## Junior Fabric Technologist

We are **GES EXPORT S.A.**, a Textile Agent Company with more than 40 years in the market with offices in Portugal, Tunisia, Morocco, Italy and the UK.

At GES we recognize the importance of our Staff as our Key resource. Due to the ever-changing natures of the fashion world and global market place, new opportunities constantly arise to be part of our team.

We are presently looking to employ a Fabric Technologist.

**The Junior Fabric Technologist will be responsible for giving support to our Fabric Technologist team** in the following functions:

- \* Fabric development, sourcing and production
- \* Follow up the critical path process
- \* Helping in ensuring that fabrics are fit for purpose
- \* Initiating and tracking wearer trials on newly sourced fabrics and communicating to the business any fabrics/garment issues
- \* Liaise with technologists across the business to ensure standards are consistent
- \* Ensuring quality, ethical & legal standards are met

### **Fabric Technologist - The Candidate:**

- \* Recent graduate in Textile Engineering or with a similar degree.
- \* Self-motivated with good communication skills
- \* The candidate must have the ability to travel overseas

### **We offer:**

- \* appropriate training to the required functions
- \* Good salary
- \* Opportunity to build a career in the Textile Industry
