

Location

New Delhi, India

Company

AQM is a fast growing company which provides quality & CSR solutions to the major European fashion retailers. Created in 2005 in France, AQM has more than 200 employees in China, Bangladesh, India, Turkey, Cambodia, Vietnam & Myanmar.

AQM core values are dynamism, ethics, involvement, reactivity and flexibility.

Our Company offers international careers in operations with high responsibility and team management. The headquarters of the company are in Shanghai – China.

Job description

As a Country Operation Manager, at the local scale you have to deal both with operational but also administrative management.

You are responsible of the AQM local inspectors and auditors team in charge of:

Final & Inline Inspections in factories

Technical & Social audits

You have to ensure that the services provided by your team are performed following the company internal process and the customer's requirements.

You are in charge of the local implementation of the internal Continuous Assessment & Training program of the Company with your team.

Being the office manager, you are responsible of the efficiency of you teams, the good health of your budget and you will have to find optimizations to improve the service and keep your operational margins.

Being full time located in India, you're the first sales representative for AQM India. With the help of our Sales Department your aim is also to maintain the regular growth of your office turnover.

You also have to contribute to the continuous improvement of the company procedures together with the other Country Operation Managers.

You are based in our New Delhi office but you will have to travel into the country at least once a week in our Tirupur and Mumbai office, and as AQM is an international company you may travel across Asia for training or operational purpose several times per year.

Skills

You are ... Enthusiastic, reliable, rigorous, demanding with strong abilities for services (towards your customers and colleagues), with a strong will to bring your team to the top.

English: Fluent – French: should be an advantage

First management experience in textile/garments industry is a must.

Good computer skills in using Microsoft suite & usual software.

As AQM is a fast growing company you may have to be a multi task person.
