

10-10-2022

O meu nome é João Troia e sou técnico de Recursos Humanos na Dorel Juvenile Portugal.

Neste momento, e sendo aposta de presente e futuro na Dorel Portugal, abrimos recentemente em território nacional o departamento de R&D. Assim, e com foco no crescimento, recrutar uma pessoa para a posição de **engenharia têxtil**. Abaixo, segue o descritivo de funções anunciado nas nossas redes:

#### **About us**

*Dorel Juvenile is the world's leading juvenile products company. Our products are available in more than 100 countries. We help families live carefree lives by providing them with juvenile products that rank highest in consumer reviews. That's what sets our products apart; durable, helpful and caring.*

#### **Your mission**

*We put our heart and soul into our mission to Care for Precious Life. We want to make a difference in family homes across the world.*

*If you have the curiosity, passion, and collaborative spirit, work with us, and let's move the world forward, together.*

#### **Key responsibilities**

- You are part of the product development team, and work on smart cover construction & fitting solutions to ensure a perfect finished good outlook (ideal combination between "soft goods" parts & "hard goods" parts)
  - You have the knowledge in the different types of textiles: origins, typologies, and production.
  - You do study of the different models before starting the production
  - You have the responsibility for selecting right labelling positioning (branding & others product labeling)
  - You do interpretation of technical files
  - You have the responsibility for controlling the quality at production lines
  - You support on the creation & updates of CMF (Colour Management Form) for Dorel Portugal products
  - You support on the creation & updates of operational documents such as:
    - washing labels
    - warning labels
    - PCS / PDS (Product Data Sheets) gathering all relevant product information needed to start & control the production
- This position is located at our office in Vila do Conde, Portugal.*

#### **Your profile**

- You have a degree in Textile Engineer or similar
- You have at least 3 years' experience in the textile industry
- You like the challenge of developing optimum constructions by using a minimum of material
- You set high quality standards for products and act accordingly
- You like to balance all aspects in product development
- You are able to make a quick and thorough problem analysis
- You are proactive, have social skills and the ability to work in an international organization for which some travelling may be required
- You have experience with PLM systems, TeamCenter
- You have a good English level, both speaking and writing
- You are familiar with engineering textile since conception to manufacturing of the product

#### **Are you ready to grow with us?**

*The people behind our products and brands make Dorel Juvenile an even stronger company. We are extending our leading market position and believe team spirit, personal drive, and accountability can make a real difference in achieving sustainable growth. This is essential to our future. We invite you to grow with us!*

*Do you want to be part of the growth of the next generation? Dorel needs your contribution!*
